RESOLUTION.

No. 644.—The Governor-General in Council hereby makes the following rules for the regulation of admission to the Indian Military Academy by examination in India which will be held in March/April 1934.

RULES.

1. (*i*) A candidate who desires to be examined in India shall apply to be admitted to the examination before such date and in such form as the Governor General in Council may prescribe. The application shall be made to the proper authority of the area in which his parents reside at the time of the application, or of an area in which they have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at an educational institution only, for a like period.

(*ii*) The proper authority for a Governor's Province shall be the Local Government; for Coorg, Delhi or Ajmer-Merwara, the Chief Commissioner; and for a State in India the Political Officer or Agent, who shall be addressed through the Durbar. Provided that the proper authority for candidates who are cadets of the Prince of Wales's Royal Indian Military College, Dehra Dun, shall be the Principal of the College.

(*iii*) Applications from candidates in British India (other than cadets of the Prince of Wales's Royal Indian Military College, Dehra Dun, who shall submit their applications to the Principal of the College direct) shall be submitted to the proper authority through the Collector or Deputy Commissioner of the candidate's district, or, in the case of Calcutta, to the Commissioner of Police.

(*iv*) No candidate shall make more than one application in respect of this examination.

2. A candidate must be an unmarried man and either:—

(*a*) a British subject of Indian domicile whose father (if alive) is a British subject or a subject of a State in India, or (if dead) was at the time of his death either a British subject or a subject of a State in India or a person in the permanent service of the Crown or a person who had retired from that Service; or

(*b*) a Ruler or a subject of a State in India in respect of whom the Governor General in Council has made a declaration under Section 96-A of the Government of India Act:

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training at the Indian Military Academy, Dehra Dun, and that, if such candidate is selected for admission, the parent or guardian will be required to sign a declaration that:—

(*a*)if his son/ward withdraws or is discharged from the Indian Military Academy, before the termination of his course, or

(*b*) if, on the termination of his course, his son/ward declines to accept a commission in the Indian Army,

for reasons within the control of the parent, guardian or the cadet (on which point final decision will rest with the Government of India) he will be prepared to pay the full cost which Government may have incurred on his education at the Indian Military Academy, including travelling expenses, if any.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor General in Council, be limited to such number as the Governor General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers, in the Indian Army.

5. A candidate for this examination must attain the age of 18, and must not attain the age of 20, by the first day of May 1934.

6. A candidate who, after examination by a Medical Board is found not to satisfy these requirements will not be accepted for admission to the Academy.*

7. A candidate must satisfy the Public Service Commission that he is suitable in all respects for employment as a Commissioned officer in the Indian Army.

8. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

9. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for admission.

10. (*a*) A candidate who competed in the examination held in October 1933, and failed to obtain a qualifying mark, will not be allowed to compete at the examination to be held in March/April 1934, unless he is ineligible by age to compete at any later examination.

(*b*) No candidate who fails to obtain a qualifying mark at this examination will be allowed to compete at the next examination, unless that examination is the last at which he would be qualified by age to compete.

GOVERNMENT OF BENGAL.

Political Department.

Political.

NOTIFICATIONS.

No. 13604P. —2nd December 1933.—In exercise of the powers conferred by sub-section (*1*) of section 7, sections 10 and 12, sub-section (*2*) of section 14 and section 22 of the Port Haj Committees Act, 1932 (XX of 1932), the Governor in Council is pleased to make the following rules, namely—

Rules.

1. These rules may be called the Calcutta Port Haj Committee Rules, 1933.

2. In these rules unless there is anything repugnant to the subject or context—

(*i*) "The Act" means the Port Haj Committees Act, 1932.

(*ii*) "Candidate" means any person who has been duly proposed and seconded for a seat on the Committee.

(*iii*) "Committee" means the Port Haj Committee of Calcutta constituted under the Act.

(*iv*) "Counting of votes" includes all operations involved in the counting of votes at an election of the Committee under the Act.

(*v*) "Election" means an election held under the Act.

Part I—Rules under section 7.

3. Electoral roll for the Calcutta Corporation constituency under clause (*b*) of sub-section (*1*) of section 4 of the Act shall be prepared and maintained by the Chief Executive Officer, Calcutta Corporation, who shall also act as the Returning Officer of this constituency.

Electoral roll for the general constituency under clause (*c*) of the said sub-section of the Act shall be prepared and maintained by the Registrar, Political Department, who shall also act as the Returning Officer of this constituency.

4. Any person may be nominated as a candidate for election subject to rules made under clause (*a*) of section 10 of the Act.

5. The Local Government shall appoint for each constituency a date for the nomination of candidates and shall publish such date in the *Calcutta Gazette*.

6. On or before the date so appointed for the nomination of candidates, each candidate shall either in person or by his proposer and seconder together, between the hours of 11 o'clock in the forenoon and 3 o'clock in the afternoon deliver to the Returning Officer a nomination paper completed in the form annexed to these rules and subscribed by the candidate himself as assenting to the nomination and by two persons as proposer and seconder whose names are registered on the electoral roll of the constituency.

7. The Local Government shall appoint a date for the scrutiny of nomination and on such date the Returning Officer shall give to the candidates or their representatives all reasonable facilities for examining the nomination papers of all candidates. The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination and prepare a list of valid nominations.

8. (*1*) If the number of duly nominated candidates is not greater than the number of vacancies, all such candidates shall be declared to be duly elected.

(*2*) If the number of duly nominated candidates is greater than the number of vacancies, a poll shall be taken and the Returning Officer shall, on or before the date fixed in this behalf by the Local Government, send by registered post to each elector a ballot paper, in the form annexed to these rules, together with an intimation of the date appointed by him for the counting of votes and shall enter on the counterfoil of each ballot paper the name of the elector to whom the ballot paper is sent.

9. An elector shall obtain the attestation of his signature, but not of his vote, by a Magistrate, exercising first class powers, or a Justice of the Peace or any head of a department under Government to whom he is personally known, or to whose satisfaction he has been identified. He shall then return his ballot paper to the Returning Officer after recording his vote thereon in accordance with the instructions on the ballot paper. The ballot papers which are not received by the Returning Officer before 5 p.m. on the day preceding the day fixed for the counting of votes shall be rejected.

10. The Returning Officer shall appoint a date, time and place for the counting of votes and shall give notice thereof in writing to the candidates. On the day and at the time and place so appointed he shall—

(*a*) after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "rejected" and the ground of rejection;

(*b*) count the votes given to each candidate, and declare the candidate or candidates with the largest number of valid votes to be elected.

11. Where on the counting of votes under rule 10, an equality of votes is found to exist between any candidates and the addition of one vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

12. Upon the completion of the counting of votes, the Returning Officer shall prepare and certify a return setting forth—

(*i*) the number of valid votes given for each candidate;

(*ii*) the number of votes declared invalid and rejected;

(*iii*) the names of the persons declared elected;

and submit the return to the Government of Bengal in the Political Department.

13. (*1*) If any person is elected by more than one constituency, he shall by notice in writing signed by him and delivered to the Returning Officers of both the constituencies within two days from the date of declaration of the result of such election, choose for which of these constituencies he shall serve and the choice shall be conclusive.

(*2*) When any choice for any constituency has been made, his election by the other constituency shall become void and the Returning Officer of this latter constituency shall then in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate to be declared elected, the Local Government shall call the constituency to elect another person.

(*3*) If the candidate does not make the choice referred to in sub-rule (*1*) of this rule, the election of such person shall be void and the Returning Officer of each of those constituencies shall in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate or candidates to be declared elected, the Local Government shall call upon the constituency or constituencies concerned to elect another person or persons.

14. The elected members shall co-opt at a meeting four members preferably from among the elected Muslim members of the district boards in Bengal subject to the rules framed under clause (*a*) of section 10 of the Act.

Part II—Rules under section 10.

15. A person shall not be eligible for election, co-option or nomination as a member of the Port Haj Committee in Calcutta if such person—

(*a*) is not a British subject; or

(*b*) is under 30 years of age; or

(*c*) is an undischarged insolvent; or

(*d*) has been adjudged by a competent court to be of unsound mind; or

(*e*) having been a Government servant has been dismissed or is under suspension; or

(*f*) having been a legal practitioner has been dismissed or is under suspension from practising as such by order of any competent court; or

(*g*) has undergone imprisonment for an offence which in the opinion of the Local Government involves moral turpitude.

16. If any doubt or dispute arises as to the election and co-option of members the matter shall be referred to the Local Government whose decision shall be final.

17. (*1*) A nominated member may resign by notifying in writing his intention to do so to the Local Government and on such resignation being accepted shall be deemed to have vacated his office.

(*2*) An elected or co-opted member may resign by notifying in writing his intention to do so to the Chairman who shall forthwith lay such notice before the Committee at the meeting and on such resignation being accepted by the Committee at a meeting, he shall be deemed to have vacated his office.

18. (*1*) The Local Government may remove an elected or co-opted member on the ground of misconduct in the discharge of his duties if the removal is recommended by a resolution of the Committee passed at a special meeting called for the purpose and supported by the votes of two-thirds of the members of the Committee.

(2) The Local Government may remove any member—

(i) if he refuses to act or becomes incapable of acting or is declared insolvent or if after his election as member, he is convicted of an offence which in the opinion of the Local Government involves moral turpitude; or

(ii) if he absents himself from three consecutive meetings of the Committee except on account of illness or any other cause approved by the Committee and the Government; or

(iii) if he is considered to be unsuitable in the opinion of the Local Government.

19. If any nominated, elected or co-opted member is, by reason of his death, resignation or removal, unable to complete his full term of office the vacancy so caused shall be filled by the nomination, election or co-option of another person as the case may be. The person so nominated, elected or co-opted shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

Part III—Rules under section 12.

20. The term of office of the Chairman shall be for a period of three years from the date of his election and such term shall be held to include any period which may elapse between the expiry of the said three years and the date of the first meeting of the newly formed Committee held under the provisions of sub-section (1) of section 11 of the Act.

21. The Chairman shall, for the transaction of the business connected with the Port Haj Committees Act, 1932 (XX of 1932), or for the purpose of making any order authorised thereby, exercise all the powers vested by the Act in the Committee, and where by any other law power is vested in the Committee for any purpose, the Chairman may transact any business or make any order authorised by that law in the exercise of that power, unless it is otherwise expressly provided in that law:

Provided that the Chairman shall not exercise any power which is directed to be exercised by the members at a meeting.

The Committee at a meeting may delegate to the Executive Officer all or any of the powers of the Committee and upon such delegation the Chairman shall cease to exercise the powers so delegated to the Executive Officer.

The Chairman shall have authority to make appointments to posts carrying a pay not exceeding Rs. 75 per month, subject to the approval of the Committee.

22. (1) An elected Chairman may resign by giving notice in writing of his intention to do so before the members at a meeting and on such resignation being accepted by the members at a meeting the Chairman shall be deemed to have vacated his office.

(2) An appointed Chairman may resign by notifying in writing his intention to do so to the Local Government, and on such resignation being accepted shall be deemed to have vacated his office.

23. (1) A Chairman or Vice-Chairman shall be removeable by Government at any time if a no-confidence motion or a vote of censure is passed against the Chairman or the Vice-Chairman, as the case may be, by not less than two-thirds of the members at a meeting specially convened for the purpose.

(2) A Chairman or Vice-Chairman shall be removed from office if he becomes disqualified under these rules from being a member of the Committee.

(3) The Local Government may at any time remove a Chairman appointed by it, or elected by the Committee if, in its opinion, he is considered unsuitable.

24. If any Chairman is, by reason of his death, resignation or removal, unable to complete his full term of office, the vacancy so caused shall be filled by the election or appointment of another person as the case may be. The person so elected or appointed shall fill such vacancy for the unexpired remainder of the term for which such Chairman would otherwise have continued in office.

Part IV—Rules under sub-section (2) of section 14.

25. The Executive Officer shall be the principal Executive Officer of the Committee and shall act under the direction of the Chairman through whom he shall be responsible to the Committee.

The Executive Officer shall subject to the general control of the Committee, exercise such powers and perform such duties as the Committee may direct.

26. All other officers and servants of the Port Haj Committee shall be subordinate to the Executive Officer and to the Committee through the Executive Officer.

27. (*1*) The Executive Officer, other officers and servants appointed by the Committee or by Government, shall be governed by the Civil Service Regulations, Fundamental Rules and other rules relating to Government servants in respect of leave, retirement, pension, etc.

(*2*) The Executive Officer, other officers and servants appointed by the Committee, shall not be suspended, discharged, or dismissed unless such suspension, discharge or dismissal is recommended by a resolution of the Committee passed at a special meeting called for the purpose and supported by the votes of two-thirds of the members of the Committee.

(*3*) The Executive Officer, other officers and servants of the Committee appointed by the Government, shall not be suspended, discharged or dismissed unless such suspension, discharge or dismissal is recommended by a resolution of the Committee passed at a special meeting called for the purpose and supported by the votes of two-thirds of the members of the Committee and the reason for such suspension, discharge or dismissal is considered by the Local Government to be cogent and satisfactory and the resolution approved by the Government.

28. (*1*) The Executive Officer shall be responsible for the proper discharge of the work of the office of the Port Haj Committee, the receipt by his staff of cash deposits, the settlement of all claims by heirs of deceased pilgrims and giving of assistance and advice to all pilgrims arriving in Calcutta, residing in the musafirkhanas and the making of suitable arrangements for pilgrims' needs at the time of their embarkation and disembarkation on return to Calcutta. (*2*) The Executive Officer shall tour over such mufassal districts of the province from which the majority of pilgrims hail and shall organise and reorganise the mufassal Haj Committees and give them proper instructions with regard to the pilgrimage.

(*3*) The Executive Officer shall inspect the licences of the pilgrim brokers or muallims and shall report to the licence issuing authorities if in his opinion the holder of such a licence is found undesirable to act as a pilgrim broker or muallim.

32. In addition to the objects prescribed in section 18 of the Act the Committee may apply the Haj funds to—

(*1*) publicity and carrying on of propaganda work regarding Haj pilgrimage,

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 4076L.C.—5th December, 1933.—The following report of the Select Committee on the Bengal Cess (Amendment) Bill, 1933, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Cess (Amendment) Bill, 1933.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Cess (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 16th August, 1933, have the honour to submit this our report with the Bill as amended by us annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter inserted has been underlined.

The Bill was published in English in the *Calcutta Gazette* of the 27th July, 1933.

2. We do not consider that the Bill has been so altered as to require republication.

3. The Committee met for the first time at Darjeeling on the 9th October, 1933, and concluded its sittings on the 14th idem.

4. The changes made in the Bill are as detailed below :—

Clause 2.—We have omitted this clause as being unnecessary.

Clause 3.—We have made certain drafting changes in this clause which have been necessitated by the omission of clause 2.

Clause 5.—We have omitted this clause as being no longer applicable in view of certain changes made in proposed Chapter VIIA.

Clause 6.—We have omitted proposed section 45 (*1*) and inserted a new sub-section in its place extending the benefits of the rebate to tenure-holders and to cultivating *raiyats*, provided that the annual cess payable amounts to fifty rupees or more.

In proposed section 45 (*2*) we have increased the period within which payments of road cess or public works cess can be made to the Collector without penalty from fifteen days to thirty days from the date on which the same becomes due.

Clause 8.—In proposed section 51A (*2*) we have inserted a limit within which a demand for information asked for in proposed section 51A (*1*) shall be complied with.

Clause 11.—We have omitted clause 11 (*e*) as being unnecessary and made consequential drafting alterations in clauses (*c*) and (*d*).

Clause 14—Chapter VIIA.—We have made a drafting alteration in the heading of this new chapter.

Proposed section 107A.—We have substituted a new proviso for the proviso in proposed section 107A (*1*) of the Bill as introduced providing—

(*1*) in the case of a valuation or revaluation made under the provisions of new Chapter VIIA that it should not take effect till 10 years after the last valuation or revaluation under the chapter;

(*2*) in the case of a valuation or revaluation not made under the provisions of the new Chapter VIIA, then not before the expiration of five years from the date of such valuation or revaluation.

Proposed section 107B.—We have made certain drafting alterations in the definition of "acreage rate" in proposed section 107B (*1*).

A clerical mistake has been corrected in proposed section 107B (*7*) (*ii*).

We have added a definition of "farmer of an estate" in proposed section 107B (*8A*) as being necessary.

In the *Explanation* to the definition of "rent" in proposed section 107B (*11*) we have increased the period from three years to five years.

Proposed section 107C.—The important changes made in this section are as follows:—

(*1*) In proposed section 107C(*2*)(*b*)(*i*) we have omitted "forests" from the lands which shall be cess-free under that section and have, by the insertion of section 107C(*3*)(*iii*), left them to be dealt with under Chapter V.

(*2*) We have inserted "unculturable" before "*bil*" in proposed section 107C(*2*)(*b*)(*i*) to make the meaning clearer.

The other changes made in the proposed section are of a drafting character.

Proposed section 107D.—We have, by a majority, reduced the maximum acreage rate from one-fifth to one-sixth of the gross produce per acre.

In proposed section 107D(*2*)(*iii*) we have increased the period from "three" to "five" years.

By the insertion of proposed section 107D(*2*)(*b*) we have also, by a majority, restricted the acreage rate to a figure which shall not increase the total cess demand in a district by more than 20 per cent.

In proposed section 107D(*4*) we have increased the figure of the acreage rate of certain lands referred to in the sub-section from ten to twenty rupees per acre.

The other minor changes are of a drafting character.

Proposed section 107E.—We have substituted for clauses 107E(*1*)(*a*) and (*b*) new clauses which limit the discretion of the Collector, in determining the cess-free lands referred to in the latter part of clause (*a*) and in clause (*b*) to lands and classes of lands which he considers to consist of unculturable waste. We have also removed the obligation to prepare a list under clause (*b*) in respect of every village. "Forests" have been omitted from the section to be left to be dealt with under Chapter V.

Proposed section 107F.—We have re-drafted proposed section 107F(*1*) so as to provide that the Collector shall give his reasons for his proposals specified under clauses (*a*), (*b*) and (*c*), and not only in regard to (*b*). Whether the reasons are to be at length or otherwise, we have left to the discretion of the Collector.

The changes made in proposed section 107F(*2*) are more or less of a drafting character.

Proposed section 107G.—We have re-drafted proposed section 107G(*2*) to make the intention more clear.

A clerical mistake has been corrected by the substitution of the word "cess" for "rent".

Proposed section 107-I.—The changes made in this section are mainly of a drafting or consequential character.

Proposed section 107J.—Two slight drafting changes have been made in proposed section 107J(*1*) and (2), second paragraph.

Proposed section 107-O.—The changes made in this section, in sub-sections (*3*) and (*4*) are of a drafting character to make the intention more clear.

Proposed section 107R.—Owing to the great importance we attach to the rules to be made under proposed section 107R(*1*)(*h*), we have inserted a proviso that these rules shall be made subject to the condition of previous publication.

Proposed section 107S.—We have added two new clauses (*c*) and (*d*) as being necessary. The other changes are of a purely drafting character.

Joint minute of dissent by the Hon'ble Sir P. C. Mitter, K.C.S.I., C.I.E., Mr. H. C. V. Philpot, Mr. W. H. Nelson, Mr. J. B. Kindersley and Rai Mahendra Nath Gupta Bahadur.

Clause 14: Proposed section 107A (1), provisos (i) and (ii).—We would prefer to retain the period of 5 years in both cases. If, however, the Council decides against the amendment suggested by a majority of the members of the Select Committee in proposed section 107D (*2*) (*b*), we would not object to the amendment contained in the provisos to section 107A (*1*).

Proposed section 107D(2) (a).—We are opposed to the reduction of the maximum from 1/5th to 1/6th. The maximum must be one which is applicable to every district in which the new Chapter VIIA will be in force. In some of the less fertile districts a maximum of 1/6th may have the result of limiting the cess demand to a figure which is lower than the existing cess demand even though in that particular district the cess demand is not too high.

Proposed section 107D(2)(b).—We are also opposed to the limitation of the increase of the cess demand of a district at any revaluation to 20 per cent. more especially if the next revaluation cannot take place for 10 years.

Minute of dissent by Mr. W. H. Thompson, M.L.C.

Clause 6.—There is no justification for such a rebate except as a business proposition. It should be offered only to such an extent as is justified by the advantage which will be obtained through making collection expeditious. Five per cent. is too much to give away especially when times are not as hard as at present. I would prefer to frame the clause to give the Collector, with the sanction of the Local Government, power to offer such rebate for such time and at such rate, not being more than 5 per cent., as he may think fit.

Clause 14: Proposed section 107D (2) (b).—Some districts are economically progressive, others are not. If the economic progress of a district is such that it can afford to bear an increased road cess, it should be permitted to have the additional amenities which the correspondingly increased expenditure by the District Board will provide. It is, therefore, a mistake to place an arbitrary limit of 20 per cent. on the permissible increase of road cess at a revaluation.

There is a much stronger objection to the application of this 20 per cent. limit to the next revaluation in Burdwan, Hooghly, Howrah, 24-Parganas, Rangpur and Dinajpur where the existing valuation is based on returns which will certainly prove to have been incomplete.

Proposed section 107E.—The modification of sub-section (*1*) (*b*) is an improvement, but I think the retention of this clause, even as it stands, will defeat the object of the Committee, which was to make it easy for a Collector to exclude types of unprofitable waste land, not recorded as individual classes in the record-of-rights, without rendering him liable to be flooded with applications for exclusion of odd pieces of land which he could not deal with except by local enquiries. One acquainted with the Rajshahi district, for example, acting on an instruction from the Collector, could quite easily pick out the old useless tanks on the village maps without local enquiry recognising them by their having no *bustees* round them, by their being orientated and oblong instead of square, and by the wideness of the banks. A much more practically useful clause than clause (*b*) would be:—

"When it appears to a Collector that there is a type or types of uncultured waste land in the district or in part of the district not recorded as a separate class in the settlement record which should in his opinion be cess-free, he may prepare a list of plots of such type or types and the plots in the list shall be cess-free."

Proposed section 107-I (1) (c).—There are very few transfers of land from one tenure to another, and as mutations are not difficult to follow, there will be little difficulty in putting the statements into the hands of the persons interested, but, in the case of *raiyati* and under-*raiyati* holdings, a few years after the record is complete it is found that transfers and mutations are innumerable. The law should be made clear that it is not the Collector's duty to take any cognizance of such changes in the case of *raiyati* holdings, and I would, therefore, prefer to leave clause (*c*) as it was and add after (*c*) a separate clause (*d*) to the section as follows:—

"(*d*) In respect of every *raiyati* and under-*raiyati* interest, entered in the record-of-rights a postcard or other notice stating the annual value of the lands shown in the record as appertaining to such interest and addressed to the person named in the record as the possessor of that interest."

Minute of dissent of Raja Bhupendra Narayan Sinha of Nashipur, M.L.C.

Clause 6.—In the original Bill the rebate of 5 per cent. had been proposed to be allowed only to the holders or farmers of an estate directly held under the Government. That is, only the *zamindars* are to enjoy this concession.

The Select Committee has modified the clause by allowing this privilege to all grades of persons paying cess. This is an improvement and is welcomed by all. But having regard to the fact that this concession has been extended to the tenants as well, it will not be much appreciated by them unless the rate of rebate be increased. The tenants' share of cess is invariably very low, and if 5 per cent. rebate be granted, they will be tempted to avail themselves of this opportunity. The object of this clause will be frustrated. The main object is to encourage punctual payment by granting rebate. If the sum is not a much appreciable amount, naturally, no one will be allured to get the full benefit.

Further, on the *zamindars'* point of view, I beg to say that as the law stands, the *zamindars* have to pay cess almost a month in advance even if the payment by the tenants be punctually made. By way of illustration, I beg to point out that the first date for the payment of cess after the valuation or revaluation is on the 28th June corresponding to 12th *Asharh;* whereas the first payment of cess by a tenure-holder or a tenant is on the 1st *Shravan.* Thus there is a difference of 18 or 19 days. In addition, it takes at least 10 days for the *mufassal kutchary* to make over the collection to the Sadar for manifold reasons. Thus, even if the punctual payment be made by the tenants, the *zamindars* have to pay in one month in advance. Thus, they have to suffer with respect to interest automatically for a month. So by way of collection charges the *zamindar* can claim the usual rate allowed by the Court.

Moreover, there are bad debts which are never realised, even through the help of the Court, and this is about 20 per cent. approximately. It will be a sheer injustice if the landlords have to suffer for the debts of the others. Considering all these circumstances, I propose that 12½ per cent. rebate be allowed.

Clause 8.—The object of this clause, as stated by the Hon'ble Member-in-charge, is to ascertain the particulars of the rent-free holders, especially their addresses, so as to facilitate the collection of the cesses. With this object in view, it has been proposed that the rent-free holders will furnish the particulars on receiving the demand notices, failing which they will be penalised. But in practice it has been found that even where the record-of-rights has been completed, the addresses of rent-free holders cannot be found even if the addresses are written according to the settlement record.

Thus, unless the proper addresses be ascertained, the object of this clause will be frustrated, as it will be impossible to send the notices of demand. There will be unnecessary trouble and labour on the part of the Collectorate to issue demand notices without proper addresses which will be undelivered and returned back invariably. The work of the Collectorate will be hampered and increased for nothing and no effective purpose will be served.

I, therefore, suggest a clause be added after the words "to give" in the proposed section 51A, *e.g.*, "within three months from the date of the publication of this Act in the *Calcutta Gazette* or within three months from the date of any subsequent changes and." This will simplify the matter. The tenants will have no fear of a demand notice or of being penalised in future, as they will know beforehand what they will have to do. There will practically be no occasion to send demand notices or to penalise the rent-free holders. At the same time the main object of this clause will be secured fully.

Further, I may add that a similar provision to notify any changes in the proprietary right of a land is provided in the Land Registration Act.

Clause 14: Proposed section 107D (2) (b).—I would suggest that in case where the revaluation has been made after the record-of-rights, the increment should not be more than 10 per cent. of the existing total assessment. But where the valuation has not been done after the record-of-rights, I do not like to make any restriction.

My reason for this suggestion is that it is found invariably that where the valuation had been made after the record-of-rights, the increment was more than 50 per cent. of the previous assessment. If the limit of 20 per cent. increment be provided, it will be too hard for the rate-payers.

Minute of dissent by Khan Bahadur Maulvi Alimuzzaman Chaudhuri, M.L.C.

Clause 6.—I am not in favour of granting rebate. It will not give any appreciable benefit to the revenue-paying or rent-paying interests; at the same time the income of district boards will be crippled. It also gives a preferential treatment to a certain class of interests only. It was found that the provisions could not be extended in general as it will not be practicable. This clause should have been omitted.

Joint minute of dissent by Mr. Sarat Kumar Roy, M.L.C., and Mr. Saileswar Singh Roy, M.L.C.

With regard to clause 6, proposed section 45 (*1*), we feel that the percentage of rebate as suggested in the report of the Select Committee is much too small to prove any effective incentive to regular payment of cesses or to cover the loss which the landlords generally incur on account of want of realisation of cesses in time. On these two grounds we press for rebate of 15 per cent. but by way of compromise we now propose 12½ per cent. of which half may be payable to the tenants. We hope that it would be acceptable to the House.

Minute of dissent by Babu Satish Chandra Ray Chaudhury, M.L.C.

I sign the report subject to this note of dissent:—

The Select Committee have extended the benefit of the rebate system to every grade of cess-payers, but at the same time have fixed a minimum cess payable for each estate, tenure or interest to entitle the holder to the benefit of the rebate. This will disentitle a landholder who may have to pay in the aggregate cess much above the minimum but who pays less than the minimum for each estate held by him. Such landholders would now get nothing for their trouble. The Select Committee amendment has made their case worse. As for the tenants, the benefit assured to them is quite illusory, as few tenants in each estate pay Rs. 50 as cess for a single holding. I would, therefore, either do away with the minimum altogether, restoring the principle in the original Bill, or make the benefit of the rebate available to all who in the aggregate pay a minimum cess of Rs. 20 for all their estates, tenures or holdings as the case may be.

Clause 14: Proposed section 107D(1).—The intention underlying this clause seems to be to make the units as large as possible, as the Collector has been given a discretion as to whether a district should be divided into units or not. This will defeat the main avowed object of the Bill which is to remove inequalities in taxation between tenant and tenant or between a tenant and his under-tenant. If the units are made too large embracing several fields or thanas without regard being had to the character and classification of the lands comprised in the same, the average valuation and rate based on the same will result in grave and serious prejudice to the holders of lands of inferior quality, thus introducing an element of grave inequality. So long as a man holds all classes of land or the best classes only, he will have little cause of complaint, but there are many fairly big areas where the lands are of such inferior quality that the holders must need suffer if they are to pay according to a calculation arrived at by working an average with the best lands of the neighbourhood. Some hardship and injustice may be inevitable, but any injustice on a wide scale is very much to be deprecated. I would, therefore, make the division of the district into suitable units obligatory and would make the units ordinarily correspond with the areas of the union boards, special cases requiring special treatment.

In proposed section 107D(*2*)(*ii*) and (*iii*) for "agricultural produce generally" and "all agricultural produce" I think "staple food crops" should be substituted to simplify investigation and to avoid unnecessary harassment. Nowadays, whenever there is a rise in the price of one agricultural produce, *e.g.*, jute, there is a corresponding rise in the price of others. Besides, there is much less fluctuation in the price of paddy from year to year than in the case of a commercial crop like jute. So this should be taken as the standard for the purpose of valuation of lands.

In proposed section 107E(*1*)(*b*), the proviso restricts the discretion of the Collector too much, leaving no remedy for cases in which large areas have been rendered more or less valueless since the last record-of-rights operation, owing to natural or other causes, and yields little or no profit after meeting the expenses of cultivation, although they cannot be called unculturable waste in the true sense of the words. As the proposed method of assessment means a direct levy on the land, every circumstance relating to the capacity of the lands to pay should be taken into consideration.

A definite period of publication should be provided for the proposed section 107F to enable objections to be made in the first instance to the Collector before he makes his order final.

Lastly, I think a 10 per cent. increase of income should be the maximum limit to be reached in any revaluation in those districts where there has been a revaluation after the record-of-rights.

Minute of dissent by Maulvi Tamizuddin Khan, M.L.C.

I differ from the majority of the members of the Select Committee on one fundamental point. The Bill if passed into law will be yet another anti-tenant measure on the statute book, and in its operation will do great injustice to an overwhelming number of the breadwinners of this province.

The main object of this measure is said to be the introduction of a more equitable principle of assessment of cess than what is in vogue at present. This object will never be achieved except within a narrow circle, if at all. As far as the relative liability of the landlord and the tenant is concerned, the measure far from bringing about an equitable adjustment will not only perpetuate the existing inequity, but what is worse, will deprive the cultivating *raiyats* of the little privilege they enjoy under the present law. Section 41 of the present Cess Act lays down the relative liabilities of *zamindars* (holders of estates), tenure-holders and cultivating *raiyats* (*raiyats* who cultivate their own lands and have not sublet the same) as regards the payment of cess. Assessment is made on the "annual value" of the lands at a rate not exceeding one anna per rupee. At present the full rate of one anna is levied in all the districts. "Annual value" is defined as follows in section 4 of the Act: " 'Annual value of any land, estate or tenure' means the total rent which is payable, or if no rent is actually payable, would, on a reasonable assessment, be payable, during the year by all the cultivating *raiyats* of such land, estate or tenure or by other persons in the actual use and occupation thereof." To illustrate the system of assessment now in vogue under the present law, let me take a very simple case of a *zamindar* whose estate consists of 4 acres of land which he has entirely let out to cultivating *raiyats* at a total rent of Rs. 12 and there is no subletting by these *raiyats* to under-*raiyats*. The total cess payable by this estate is (12 × 1 anna) 12 annas of which the *raiyats* have to pay half, *i.e.*, 6 annas, and the landlord has to pay the remaining half if his estate is revenue-free. If he pays a revenue, his share of cess is a little reduced, as he is entitled in that case to a deduction to be calculated at the rate of half an anna (½ anna of the rate at which the cess is levied in the district in question) per rupee of revenue that he pays. Now if the *zamindar* in this case pays a revenue of Rs. 3, he has to pay (6 annas—3 × ½ annas) 4½ annas as his share of the cess. The *raiyat's* share, however, remains 6 annas as above, *i.e.*, half of the total maximum cess (annas 12) leviable on this estate. This is exactly what is laid down in section 41(3) of the Cess Act which runs as follows: "Every cultivating *raiyat* shall pay to the person to whom his rent is payable *one half* of the said road cess and public works cess calculated at the said rate or rates respectively (*i.e.*, the rate or rates which may have been determined for the year in question, such rate being now determined in all districts at the maximum rate of one anna per rupee) upon the rent payable by him or upon the annual value ascertained under the provisions of section 24 or 25 of the land held by him." In the case of cultivating *raiyats* who have not sublet their holdings, the provisions of sections 24 and 25 are seldom applied. So the present law is that the cultivating *raiyats* have to pay one half of the total cess and no more. The proposed legislation is taking away this safeguard of the cultivating *raiyats*, because there is no provision in the Bill limiting the cess to be paid by cultivating *raiyats* to any particular proportion, and it is apparent that under the scheme contemplated in the Bill the burden on the shoulders of this class of *raiyats* will be tremendously increased. The *raiyats* who will be thus adversely affected are mostly occupancy *raiyats* who cultivate their lands themselves and have not sublet their holdings to under-*raiyats*. They are the pick of the tenantry of this province, and it will be highly regrettable if the already heavy burden on their shoulders is unduly increased.

This legislation will give no relief to the tenantry as a whole. It will simply lighten the burden on the shoulders of certain classes of tenants, *viz.*, under-*raiyats* and "cess-tenure holders" (*raiyats* who have sublet their holdings and are treated as tenure-holders by the administrators of the Cess Act), but it will do so by transferring that burden entirely to the shoulders of cultivating *raiyats*. Again, at each revaluation whatever increase in the total cess demand of a district or unit of a district is made will almost wholly fall on the shoulders of this class.

The scheme proposed is this: An acreage rate will be determined by the Collector for a district or part of a district and according to the decision of the Select Committee, such rate may extend up to one-sixth of the value of the gross produce per acre of ordinary agricultural land in the area. The annual value of a land will be the acreage rate multiplied by the area, and the cess will be levied at the rate of 2 pice (6 pies) per rupee in the maximum on such annual value. Now as regards the question of an estimate of the value of the average gross produce of the province let me quote a few lines from a note circulated to the members of the Council from the Revenue Department a few months ago. The note says: "From the statistics of 11 districts of which the final reports have been published, it appears that, to state generally, the average gross produce of cultivated lands is about Rs. 55 per acre, varying from Rs. 47 in Bankura to Rs. 75 in Noakhali."

I shall now try to illustrate by example the respective incidence of cess upon cultivating *raiyats* under the present system *vis-a-vis* the proposed system. Before I do this I would like to state that the total revenue paid by the *zamindars* of the province is said to be about 2 crores and 15 lakhs and the total rents collected by them as far as occupancy *raiyats* are concerned is said to be about 8½ crores of rupees. Therefore, for every rupee of revenue paid by a *zamindar* he gets Rs. 4 as rent from such *raiyats*. Again, it is stated in the note referred to above that "the average rate of rent of the *dejure* (Bengal Tenancy Act) *raiyat* is about Rs. 3 per acre." The example that I have already cited of a *zamindar* of 4 acres of land, paying a revenue of Rs. 3 and getting Rs. 12 as rent from his *raiyats* who cultivate their own lands, and have not sublet their holdings, is, therefore, a typical one. We have already seen

that the total cess to be paid according to the present system, by all the cultivating *raiyats* under this *zamindary* is 6 annas. Under the proposed scheme, taking the acreage rate to be Rs. 9 (⅛ of Rs. 54 which is taken to be the value of the average gross produce of an acre of land) the total cess payable from this estate will be (4 × 9 × ½ anna—3 × ½ anna) 16½ annas. Of this amount the *zamindar* will pay 4½ annas as under the present system and the remainder of 12 annas will have to be paid by the *raiyats*. That is, the *raiyat's* share will be double of what it is at present. Even if the acreage rate is fixed at Rs. 8, the total cess will be 14½ annas and the *raiyat's* share will be 10 annas. Taking the acreage rate to be as low as Rs. 7 which is an extremely unlikely figure, the *raiyat's* share will be 8 annas. These examples show to what extent the burden on the cultivating raiyats will increase under the system proposed to be introduced. This was frankly admitted in the abovementioned note of the Revenue Department. One of the alternative suggestions as to the future scheme of assessment was thus considered in the note: "(3) Take a uniform rate of 1½ pice per rupee of 'net profit' (acreage rate × area—revenue or rent) both for the cultivating *raiyats* and the landlords." Regarding this suggestion, the note said: "The objection to plan (*3*) is that it will involve a substantial increase of the burden of the cultivating *raiyats*." If a rate of 1½ pice per rupee on the net profit was then objectionable, one fails to understand how a rate of 2 pice per rupee now proposed has been acceptable.

The number of *raiyats* who will be thus adversely affected is by no means insignificant. From the statistics supplied to the members of the Select Committee from the department, it will be seen that the number of holdings of *raiyats* at fixed rates is about 8 lakhs and that of settled and occupancy *raiyats* is about 95 lakhs. Of these 103 lakhs, about 30 lakhs have been sublet to under-*raiyats* in part or whole. Deducting these 30 lakhs from the aforesaid 103 lakhs of holdings, we get 73 lakhs of holdings in respect of which there has been no sub-infeudation. The holders of these 73 lakhs of *raiyati* holdings will be adversely affected and in all likelihood the burden on their shoulders will be doubled. They are undoubtedly the flower of the Bengal tenantry and the treatment that is proposed to mete out to them will certainly bear its evil fruit. This is the most conscious and vocal class of tenants in the province. It is highly undesirable to poke them any further.

If this Bill is passed into law, it will most effectively stand in the way of whatever little chance yet remains, of enforcing the Rural Primary Education Act. If the cess burden of this class of tenants is now increased in the manner proposed, it will be unthinkable to impose another equally heavy burden on them under the Education Act. The Primary Education Act will be successfully strangulated if the proposed measure is passed into law.

There is another obvious and fundamental objection to the Bill. During the last 50 years the cess demand of the province has almost doubled. There is no doubt that the cess will go on increasing almost in every district at each new valuation. What justification is there that the burden of the increase will wholly fall on the shoulders of cultivators and that landlords will go entirely scot-free? It is glibly said that everyone is going to be assessed on his net profit. It is nothing but camouflage to say that the *zamindar's* net profit consists only of the difference between the rents that he receives and the revenue that he pays, as it is taken to be by the proposed enactment. The Bill altogether excludes from consideration all the other earnings of a *zamindar* in calculating his net profit.

Such an ill-conceived, unjust and inequitable measure does not deserve to be placed on the statute book.

I refrain from mentioning here the other objections I have to the majority report of the Select Committee, as my note of dissent has already become very lengthy. I reserve the right to mention these on appropriate occasions during the stages the Bill has yet to go through.

Minute of dissent by Mr. Mukunda Behary Mullick, M.L.C.

I sign the Report of the Select Committee subject to this note of dissent:—

I think that clause 6, proposed section 45 (*1*) should be deleted. The liability to pay cess is a statutory obligation for anyone holding cess-paying lands, and therefore I do not think that there ought to be a rebate granted to any of them. The reason applied to the rebate granted in some business concerns has no application to the case of cess. Moreover, the cess is the income of the district board; I think that the same ought not to be reduced in any way.

In clause 6, in proposed section 45(*2*) the period of limitation for the recovery of unrealised cesses ought to be three years and there is no reason to make it as long as six years.

Minute of dissent by Khan Bahadur Muhammad Abdul Momin, M.L.C.

It is apprehended that if the acreage rate be fixed on the basis of the value of all kinds of produce of the lands within a local area it will operate harshly on such tenants

who own only "*ek-fasli* lands" (the number of such being over 50 per cent. in all districts) also the ascertainment of value of each crop will be difficult and indefinite. I, therefore, suggest that the value of only staple food crops be taken as the basis irrespective of what the tenants actually grow. The agricultural prosperity or otherwise in Bengal is and has always been gauged in terms of paddy.

2. As it is likely that individual districts or cases when rents are low the cess calculated on the acreage rate will go up considerably, there ought to be a safeguard that no "individual tenant's cess should go up by more than 10 per cent. over his present cess."

3. I am opposed to the proposed system of payment of rebate. It is against the principle of payment of all existing public demands and in the case of cess will lead to unnecessary complication without serving any useful purpose.

Minute of dissent by Mr. N. K. Basu, M.L.C.

I dissent from the proposed changes in clause 6, proposed section 45(*1*) and clause 14, proposed section 107D(*2*)(*b*). I reserve my reasons for the Council.

Minute of dissent by Rai Sahib Panchanan Barma, M.B.E., M.L.C.

Clause 6: Rebate.—In the original Bill, rebate was proposed to be granted to the owners of estates only. But the Select Committee extended the grant of rebate to the owners of estates or tenures and to the cultivating *raiyats;* the principle on which the rebate is based being to induce payment of the instalment of cess on or before the due date which is applicable to all the cases.

I think, in the proviso (*a*) to the proposed section 45(*1*) the phrase "at one time" should be omitted. The question that matters is that the instalment is paid "on or before the due date." That condition being fulfilled, it is immaterial whether the instalment is paid at one time or more, rather it will give facility for payment to the payer, if he be allowed to pay at more than one time.

Proviso (*b*) to the proposed section 45(*1*) puts great restriction on the title to get rebates. It provides that a cess-payer liable to pay an annual cess amounting to less than Rs. 50 is not entitled to get any rebate.

Now let us see the effect of this proviso on the holder of an estate, a tenure or a cultivating *raiyati* holding. How are any of them going to be benefited? According to the proviso to proposed section 107H(*1*) the cesses, *i.e.*, road cess and public work cess, shall be levied so as not to exceed the rate of one-quarter anna on each rupee of the annual value determined, that is, the rate of the two cesses taken together shall not exceed half anna on each rupee of the annual value.

Now what shall have to be the "annual value" of an estate or a tenure or a cultivating *raiyati* holding to be liable to pay an annual cess amounting to Rs. 50? I take the rate to be not less than two pice per rupee.

To secure a cess of one rupee, the annual value of an estate or a tenure or a cultivating *raiyati* holding shall have to be Rs. 32 and to secure an annual cess of Rs. 50, the annual value shall have to be Rs. $32 \times 50 = 1,600$. A rate less than two pice will require an annual value greater than Rs. 1,600.

Taking cultivating *raiyati* holding first, this annual value of Rs. 1,600 is to be one-sixth of the gross produce of the holding according to proposed section 107D(*2*)(*a*). This means that a *raiyati* holding to be entitled to get any rebate shall have to yield a gross produce of Rs. $1,600 \times 6 = 9,600$. But no cultivating *raiyati* holding whether of one hundred or more standard *bighas* can be expected to produce so much, even though the agricultural products sell at very high rate.

Considering all these, I think that if any rebate is intended actually to be given to the cultivating *raiyats*, the amount of annual cess entitling a cultivating *raiyat* to get rebate should be reduced to at least Rs. 10.

Then taking an estate or a tenure. The annual cess of Rs. 1,600 which entitles the owner to a rebate shall in these cases have to be composed of—

(*i*) cess on his profit as landlord,

(*ii*) cess realised from his tenants, and

(*iii*) cess on the annual value of the lands under his own cultivation—that is, one-sixth of the gross produce of such lands.

So the factors composing the annual value are of three kinds and each of them may vary to different qualities. So it is difficult, except in an actual case, to make estimate of the different factors. But it is certain that a large number of owners of estates or tenures will by operation of this restriction clause be excluded from getting rebate.

Here attention is drawn to the question whether 5 per cent. rebate will suffice to create the intended inducement.

Now apart from the question of inducement for payment, the owners of estates and tenure raise the question of (*i*) their labour for collection, and (*ii*) the risk of non-realisation of cesses in some cases from their tenants. It may be said, and it is a good maxim, that they should undertake the labour and the risk for the public good in which they themselves and their tenants also are to have some share. But besides labour, they have to suffer some loss or pay something from their pocket.

It may be said, and it is sometimes a hard fact, that the landlords realise much more than what is due in cess. For such excess realisation, they ought certainly to be punished; but to put it forth as an excuse for not recognizing their trouble is to give some sort of legal sanction to illegal exactions.

Now let us view the points of the landlords closely. The amount of cess they are required to pay are composed, as have already been pointed out, of three factors:—

(*i*) cess on his profit as landlord,

(*ii*) cess realised from his tenants, and

(*iii*) the cess on the annual value of the lands under his cultivation.

The amount of cess he is to pay for items (*i*) and (*ii*) are due directly from him and there is no question of his taking trouble or risk. The only question involved is the one of inducement of payment. The question of trouble and risk arises in connection with item (*ii*). Here he realises the cess from the cultivating *raiyats* or tenure-holders under him and he is to undertake some trouble for collection and risk in some cases of non-realisation.

Considering the public duty, an owner of an estate or tenure is to perform along with the trouble and risk he is to undertake in realising the cess from his tenants and paying them to the superior authorities, I would like to fix the rate of rebate at one anna and one pice per rupee, *i.e.*, Rs. 7-13 per cent. for that portion of cesses which the landlord pays on the collection from tenants under him, *i.e.*, for item (*ii*). But with respect to items (*i*) and (*iii*) the imposition is upon him personally and he is bound to pay. Taking all the facts into consideration, I think the rebate in the cess of the owners of estates or tenure should be 6¼ per cent.

In case of an hierarchy of owners between an estate and tenures under him question has not been considered. The question should be considered. But a rebate of more than 6¼ per cent. on the original amount of cesses should not be allowed.

Clause 14: Proposed section 107D (2) (ii) (iii).—The term "agricultural produce" should be restricted to such produces as are mainly crops and of commercial value. There are many crops which are not taken notice of by *Grihasthas* when they are grown by their *adhiars*. These crops may have some local consumption, but they are not treated as something cultivated for purposes of getting money. Such crops have little or no commercial value. Such crops should be excluded from consideration.

(*2*) No such objection shall be [*made*] considered except in regard to the units into which it is proposed to divide the district or part thereof, the acreage rate which has been determined, and the classes of land which [*will*] shall be cess-free.

The Bengal Cess (Amendment) Bill, 1933.

(Clause 14.)

Appeal to and revision by a revenue authority and final publication of division of district, acreage rate and classes of cess-free lands.

107-G. (*1*) An appeal from any order of the Collector disposing of an objection under section 107-F shall, if presented within thirty days from the date of the order, lie to the revenue authority appointed by the Local Government in this behalf whose decision thereon shall, subject to the provisions of sub-section (*2*), be final.

(*2*) The Local Government and, subject to the control of the Local Government, the Board of Revenue may revise any estimate made [*by the Collector*] under sub-section (*2*) of section 107-D by any subordinate authority and any decision by any such authority relating to the division of a district or part thereof into units or to any acreage rate or to the classes of land which shall be [*rent*] cess-free.

(*3*) When the appeals, if any, under sub-section (*1*) have been disposed of, the Collector shall submit all his proceedings through the Commissioner of the Division and the Board of Revenue to the Local Government, and the Local Government, after making such modifications, if any, as it may think fit, shall finally publish in the *Calcutta Gazette* a statement showing—

(*a*) the units, if any, into which the district or part of a district will be divided,

(*b*) the classes of land which shall be cess-free, and

(*c*) the acreage rate or rates,

and the publication in the *Calcutta Gazette* shall be conclusive evidence that these have been duly determined under this Chapter. The Local Government shall forward a copy of the statement to the Collector for publication in the prescribed manner.

107-H. (*1*) Notwithstanding anything contained in section 46 of the Bengal Local Self-Government Act of 1885, the Local Government may, after considering the views of the District Board, determine for any district or part of a district the rates at which the road cess and the public works cess, respectively, shall be levied for each year on each rupee of the annual value of cess-paying land, and may from time to time vary such rates : Ben. (*2*) The rates so determined shall be published in the *Calcutta Gazette* and in the prescribed manner :

Provided that such publication shall not be necessary unless a change has been made in the rates since they were last published in the *Calcutta Gazette*.

Preparation and publication of valuation-rolls, statements, and lists of lands.

107-I. (*1*) The Collector shall prepare and publish in such form and in such manner as may be prescribed—

(*a*) a valuation-roll in respect of every estate showing in addition to any other particulars, the total area and the total annual value respectively of the rent-paying and rent-free lands in the area under valuation other than cess-free lands comprised in the estate, and the land-revenue, if any, payable for the estate or portion of the estate under valuation ;

(*b*) a valuation-roll of every rent-free interest [*Such roll shall show*] showing in addition to any other particulars the annual value of the cess-paying lands in such interest, and whether the cess is payable to the Collector direct or to the holder of an estate or tenure other than the Collector. In the latter case, the name, number or other description of the estate or tenure within which the land is included shall be stated ;

The Bengal Cess (Amendment) Bill, 1933.

(*Clause 14.*)

(*c*) statements of the annual value of lands comprised in [*rent-paying tenures.*] all other interests. The particulars contained in such statements shall be presumed to be correct until the contrary is proved.

Notwithstanding anything contained in any such statement the holder of an estate or tenure shall be entitled to recover from his tenant, and such tenant shall be bound to pay, the cess due on account of the land held or occupied by him according to the provisions of this Chapter.

(*2*) The Collector shall also publish in the prescribed manner the lists of cess-free lands [*in each village*] prepared under clause (*b*) of sub-section (*1*) of section 107-E.

Power of Collector to call for returns from owners or holders of estates or other interests.

107-J. (*1*) The Collector may, where he [*considers it to be necessary*] thinks fit and in particular in respect of rent-free interests, or where there has been a change since the last finally published record-of-rights in any area was prepared, or the last revaluation made under this Chapter, owing to the addition or exclusion of lands by alluvion or diluvion or any other causes, call for returns to be filed by the holders of estates or tenures or the owners, holders or occupiers of rent-free interests in the prescribed form.

(*2*) Where the Collector requires such returns he shall publish a proclamation in the prescribed manner calling upon the holders of estates or tenures or the owners, holders or occupiers of rent-free interests concerned to file returns in the prescribed form and every such holder or occupier shall file, with full and correct information, the returns so called for within the time specified in the proclamation.

Each such return shall show, in addition to any other particulars, the total area, the area, if any, within the limits of a municipality and the particulars of [*the*] any change in the area of such estate, tenure or interest, a specification of the lands added thereto or excluded therefrom, with an explanation of the reasons for such change, addition or exclusion, and the revenue or rent payable in respect of the estate, tenure or interest.

(*3*) If any holder of an estate or tenure or the owner, holder or occupier of rent-free interest fails to comply with the requisition for returns, he shall be subject to the provisions of sections 18, 19 and 20.

Copies of or extracts from valuation-roll to be available on payment of fees.

107-K. Copies of, or extracts from, the valuation-roll prepared under section 107-I shall be available to holders of estates or tenures or the owners, holders or occupiers of rent-free interests in such manner and on payment of such fees as may be prescribed.

Correction of mistakes in valuation-roll.

107-L. The Collector may, at any time, correct any *bona fide* mistake in or omission from the valuation-roll.

Payment of cess.

107-M. (*1*) Every holder of an estate, other than Government, and every farmer of an estate, shall yearly pay to the Collector the total cess calculated on the annual value of the cess-paying lands included in such estate, at the rate or rates which may have been determined for the road cess and public works cess respectively for the year as in this Chapter provided, less a deduction to be calculated at the said rates for every rupee of the land-revenue, if any, entered in the valuation-roll of such estate as payable in respect thereof, and less also a deduction at half the said rates on the annual value of all cess-paying rent-free lands comprised within the estate.

The Bengal Cess (Amendment) Bill, 1933.

(*Clause 14.*)

(*2*) Every holder, other than a rent-free holder, of a tenure or other subordinate interest comprising any cess-paying lands shall yearly pay to the person to whom his rent is payable the total cess calculated on the annual value of the cess-paying lands comprised in his tenure or interest, at the rate or rates which may have been determined for the road cess and public works cess for the year as in this Chapter provided, less a deduction to be calculated at the said rates for every rupee of the rent payable, if any, by him for such tenure or interest, and less also a deduction at half the said rates on the annual value of all cess-paying rent-free lands comprised within the tenure or interest :

Provided that where the rent payable is equal to or greater than the annual value, no cess shall be payable by him.

Explanation.—In this sub-section the expression " rent-payable " means, where the rent is payable in kind, the money value thereof.

(*3*) Every owner and holder of any rent-free land, and every person in receipt of the rents and profits or in possession or enjoyment of such land, shall be bound to pay year by year to the holder of the estate or tenure in which such land is included under the proviso to section 50, or to the Collector if the Collector has ordered that the cess shall be paid to him direct, the total cess calculated on the annual value of such land, not being cess-free land, at the full rate or rates which may have been determined for the road and public works cess as in this Chapter provided.

Power to Collector to grant abatement or remission of cess.

107-N. Notwithstanding anything contained in this Act, the Collector may, in accordance with rules to be made by the Local Government, at any time grant abatement or remission of any cess payable under this Chapter.

107-O. (*1*) The Collector shall cause to be served on every holder of an estate other than Government and on every farmer of an estate, in the prescribed manner, a notice showing the amount of cess payable under sub-section (*1*) of section 107-M in respect of his estate and specifying the date from which such cess will take effect.

(*2*) Notwithstanding anything contained in section 107-M, the amount shown in the said notice shall be recoverable from the said holder or farmer other than Government.

(*3*) The Collector may at any time serve a revised notice on the said holder or farmer if he finds that the amount of cess payable under section 107-M has not been correctly calculated or has not been correctly shown in the notice.

(*4*) In case of any change in the rate of cess it shall not be necessary to serve a revised notice [*but the cess payable shall be reduced proportionately to the changed rate*] but the amount of cess payable shall be proportionate to the changed rate.

(*5*) The notice issued under sub-section (*1*) shall include the cess payable in respect of the estate in all districts including cess, if any, payable under sub-section (*1*) of section 41 or section 51 on account of lands in respect of which a valuation or revaluation made under Chapter II is still in force, and no separate notice under section 40 shall be necessary :

Provided that if any lands valued or revalued in any district under this Chapter appertain to an estate which is borne on the revenue-roll or general register of revenue-free lands of another district, and a valuation or revaluation under Chapter II is still in force in respect of any lands appertaining to that estate which are situated in the latter district, the Collector may issue a notice under section 40 showing

The Bengal Cess (Amendment) Bill, 1933.

(*Clause 14.*)

the total cess payable in respect of the estate in all districts both under section 107-M and under sub-section (*1*) of section 41 and section 51, and no separate notice under sub-section (*1*) shall be necessary.

Particulars of cess to be specified in receipt.

107-P. (*1*) Where a tenant makes payment on account of cess to his landlord the rent-receipt granted by the landlord under section 56 of the Bengal Tenancy Act, 1885, shall specify the amount of cess paid by the tenant and the total cess demand payable by him correctly calculated by the landlord. VIII of 1885.

(*2*) If the receipt does not contain substantially the particulars required by sub-section (*1*), it shall be presumed, until the contrary is shown, to be an acquittance in full of all demands of cess payable by the tenant to his landlord up to the date on which the receipt was given.

Alteration of annual value and revision of valuation-roll in certain cases.

107-Q. (*1*) Notwithstanding anything contained in this Act, if at any time while any valuation or revaluation is in force it appears to the Collector that owing to alluvion or diluvion or other cause extensive changes have occurred in any land, and that in consequence thereof the annual value shown in the valuation-roll of any estate or rent-free interest should be altered, he may, after notice to the holder of such estate or rent-free interest and after making such inquiry as he considers necessary, enhance or reduce the annual value in such valuation-roll, and publish a revised valuation-roll of such estate or rent-free interest, and issue a revised notice under section 107-O , and may also, if necessary, amend any list published under section 107-I.

(*2*) When the Collector publishes a revised valuation-roll under sub-section (*1*), he may order that the revised valuation shall take effect from a date not being earlier than the beginning of the second financial year previous to the financial year in which the revised roll is published and cess shall be payable accordingly.

Resolution on the question of creating an organisation for the study of economic problems affecting the province of Bengal.

GOVERNMENT OF BENGAL.

Commerce Department.

Commerce.

RESOLUTION No. 6159 Com.

Calcutta, the 1st December 1933.

The Government of Bengal for some time have had under consideration the question of creating an organisation for the study of economic problems affecting the province. In 1931 Sir Arthur Salter, who was then Director of the Economic and Financial Section of the Secretariat of the League of Nations, visited India and prepared a scheme for an Economic Advisory Organisation in India. He expressed the opinion that a more effective system of securing a place for non-official opinion among the elements from which Government policy is evolved should be devised, and he recommended that, in addition to a Central Economic Advisory Council, there should be an Economic Advisory Council in each province.

2. Up to the present various considerations, partly financial, have prevented the Local Government from taking action on Sir Arthur Salter's proposals; but the question of appointing a committee on the lines recommended by him has recently been revived by the local Chambers of Commerce, and after full consideration of their views the Provincial Government have come to the conclusion that, in spite of financial stringency, the time has now arrived when special machinery should be set up to facilitate co-operation between Government and representatives of outside opinion in the study of the economic problems affecting Bengal. They have therefore decided to constitute a Board of Economic Enquiry.

3. The Board will be constituted as follows:—

(1) Chairman,

(2) to (7) Six representatives of commerce to be nominated by the following bodies:—

The Bengal Chamber of Commerce,
The Bengal National Chamber of Commerce,
The Indian Chamber of Commerce,
The Marwari Association,
The Muslim Chamber of Commerce, and
The Bengal Mahajan Sabha.

(8) and (9) Two representatives of the provincial universities—one to be nominated by the University of Calcutta and the other by the University of Dacca.

(10) and (11) Two representatives of agricultural interests.

(12) One representative of labour.

(13) and (14) Two non-officials interested in economic problems.

(15) The Director of Land Records.

(16) The Director of Agriculture.

(17) The Director of Industries.

(18) The Registrar of Co-operative Societies.

(19) The Senior Professor of Economics at the Presidency College.

(20) and (21) Two officials interested in economics and statistics.

Nos. 1, 10-14, 20 and 21 will be nominated by Government; Nos. 2 to 9 will be selected by the bodies named; and Nos. 15 to 19 will be members *ex-officio*.

4. The functions of the Board will be—

(*i*) to conduct enquiries into such economic matters as may be referred to it by the Local Government; and

(*ii*) to initiate and conduct, subject to the sanction of Government, enquiries into other economic matters (other than those referred to it by Government).

5. The Board will be provided with a Government officer as Secretary and it is proposed to place at its disposal a grant of Rs. 15,000 a year to cover expenditure on the enquiries it may be decided to undertake.

CALCUTTA, THE 13TH DECEMBER 1933.

RESOLUTION—No. 12005A.

1. It is with feelings of profound regret that the Governor in Council records the death in Calcutta, on the morning of 11th December 1933, of the Hon'ble Sir William David Russell Prentice, K.C.I.E., C.S.I., I.C.S., Member of the Executive Council of the Governor of Bengal.

2. Born on the 5th September 1877, Sir William Prentice joined the Indian Civil Service on 23rd October 1901 and arrived in India on the 2nd December of that year. He started his official career as an Assistant Magistrate and Collector in the district of Patna and subsequently held charge of the subdivisions of Dinapur in Patna district and of Meherpur in Nadia district. In 1906 his services were placed at the disposal of the Government of India for employment in the Customs Department. He served as an Assistant Collector of Customs first at Calcutta and then at Rangoon, where he later officiated as Collector of Customs from 1908 to 1910. On 13th December 1911 he was appointed Magistrate and Collector of the Patna district, and from 8th March 1912 to 24th July 1915 he officiated as Magistrate and Collector of Hooghly. Thereafter he held charge successively of the districts of Murshidabad and the 24-Parganas, the former for about 18 months and the latter from April 1917 to September 1922.

3. In November 1923 his services were placed at the disposal of the Finance Department of the Government of India for employment as Commissioner of Income-tax for the Bengal Presidency, a post he held till 30th March 1926.

4. On 16th November 1926 Sir William became Chief Secretary to the Government of Bengal and he continued to hold that post until, on 29th April 1930, after two periods of service in temporary vacancies, he was appointed permanently a Member of the Executive Council, Bengal.

5. From the beginning of his service Sir William Prentice showed that he possessed the qualities which go to make a zealous and efficient administrator. An indefatigable and swift worker, painstaking in detail, conscientious and sound in judgment he did not fail to fulfil that early promise. His services were recognised in 1926 by the conferment of a Companionship of the Order of the Indian Empire, in 1931 by the conferment of the Order of the

Star of India, and in 1933, only 6 months before his death, by his advancement to be a Knight Companion of the Indian Empire. Though he had spent a good many years of his service in specialised departments Sir William possessed a knowledge of rural conditions and of administrative problems which made him a valued source of information and guidance to Government in dealing with the administrative and political questions of the Province.

6. His industry was at once a revelation and an inspiration to those who had the privilege of working with him, and in moments of crisis he shouldered heavy responsibility with a quiet imperturbability which never failed to inspire confidence in those around him. The years 1930 to 1933 during which he was a permanent Member of Council were a period of continuous stress and strain which sometimes rose to a high pitch of intensity but his driving power never seemed to desert him and sudden demands on his knowledge and capacity only revealed fresh reserves of physical strength and intellectual power and a degree of courage and patience only possible in one who had the highest conception of duty. Criticism of his actions there inevitably was, and yet the very nature of much of his work did not permit the revelations or explanations to the public which might have removed the injustice of such misunderstanding or criticism. Sir William Prentice, however, never permitted criticism or misrepresentation to deflect him from those high standards of public service which he had set before himself and the part he played in the political development of Bengal no less than in the maintenance of law and order under circumstances of great difficulty and anxiety was of the utmost value to the Local Government. Sham and pretence he could not tolerate and he was not afraid to say so. But those who required advice or guidance never failed to obtain from him encouragement and wise counsel while his sense of justice was tempered by sympathy with inexperience and a keen appreciation of the failings of human nature.

7. In private life he was a cheerful companion to those about him, interested in many things, and the small circle who knew him intimately bore towards him feelings of profound affection. He was an enthusiastic Freemason, and did much on behalf of the lodges with which he was associated.

8. The Governor in Council mourns the loss of a colleague whose ripe experience, mature judgment and lofty ideals the Province can ill-afford to lose. To the relatives of the late Sir William the Governor in Council extends a sincere expression of his sympathy with them in a great and irreparable loss.

Chief Secy. to the Govt. of Bengal (offg.).

F. R. Appendix 16.

(See Chapter I, Section XIV, rule 40-D.)

Rules for the exhibition of losses in the Government Accounts.

Rules for the guidance of the Executive Officers.

I. *Budgeting.*—Provision for losses should not ordinarily be made in the budget. If, however, the nature of the work of a department is such that some losses must be regarded

as inevitable each year, provision may be made, with the special sanction of the Finance Department in each case.

II. *Report of losses.*—With the exception noted below, any defalcation or loss of public money, departmental revenue or receipts, stamps, opium, stores, or other property, discovered in a Government treasury or other office or department, which is under the audit of the Accountant-General, should be immediately reported to the Accountant-General, even when such loss has been made good by the person responsible for it. It will usually be sufficient if the officer reporting the defalcation or loss to higher authority sends to the Accountant-General either a copy of his report or such relevant extracts from it as are sufficient to explain the exact nature of the defalcation or loss and the circumstances which made it possible. When the matter has been fully investigated, a further and complete report should be submitted of the nature and extent of the loss, showing the errors or neglect of rules by which such loss was rendered possible, and the prospects of effecting a recovery. The submission of such report does not debar the local authorities from taking any further action which may be deemed necessary.

Exception.—Petty cases, that is cases involving losses not exceeding Rs. 200 each, need not be reported to the Accountant-General unless there are, in any case, important features which merit detailed investigation and consideration.

Note 1.—Losses or deficiencies concerning buildings, lands, stores and equipment should be written off any value or commercial account that may be maintained.

Note 2.—In the case of departments where accounts have been separated from audit, a special procedure for report of losses to Accounts and Audit Officers may be prescribed by departmental authority after consultation with the Auditor-General.

III. Heads of departments should submit annually to the principal auditors concerned statements showing the extra statutory remissions of revenue and abandonments of claims to revenue sanctioned during the preceding year. For inclusion in these statements, remissions and abandonments should be classified broadly with reference to the grounds on which they were sanctioned, and a total figure should be given for each class. A brief explanation of the circumstances leading to the remission should be added in the case of each class.

The statement shall not include individual remissions below Rs. 500, and it shall be submitted by the first week of June following the year to which they relate.

Note 1.—For the purposes of these rules a "statutory" remission or abandonment of revenue or a claim to revenue means a remission or abandonment which is obligatory under the provisions of any law or rule having the force of law. All other remissions or abandonments are non-statutory.

Note 2.—Where the administrative year does not coincide with the financial year, the figures of the former may, if this prove convenient to the departmental authorities, be given in the statements.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 1359L.—11th December, 1933.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

THE LICENSED WAREHOUSE AND FIRE-BRIGADE (AMENDMENT) BILL, 1933.

A

BILL

further to amend the Licensed Warehouse and Fire-Brigade Act 1893.

WHEREAS it is expedient further to amend the Licensed Warehouse and Fire-Brigade Act, 1893, in the manner hereinafter appearing; Ben Act I of 1893.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Licensed Warehouse and Fire-Brigade (Amendment) Act, 1933.

Amendment of section 10 of Bengal Act 1 of 1893.

2. In the first proviso to section 10 of the Licensed Warehouse and Fire-Brigade Act, 1893, for the words "seven hundred and fifty rupees" the words "one thousand five hundred rupees" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The intention of the framers of the Licensed Warehouse and Fire-Brigade Act, 1893, was that half the cost of the Fire-Brigade should be borne by the general tax-payers and the other half by the special interests protected by the brigade. The fees levied under the said Act have shown a progressive decline, although the cost of the Fire-Brigade has gone up and it has become apparent that until the maximum limit prescribed for license fees in section 10 of the Act is raised from seven hundred and fifty rupees to one thousand five hundred rupees it will not be possible to realise half the cost from such fees.

RESOLUTION.

New Delhi, the 7th December 1933.

No. F.-7-(50)-R. 1/33.—The Government of India have had occasion to examine the rule in clause (2) (*b*) of section V of the Administrative Instructions issued with this department Resolution No. 205-C. S. R., dated the 8th February 1924, which regulates the grant of casual leave on account of absence from duty, due to the presence of infectious diseases in the family or household of a Government servant. The rule has been found to be defective in certain respects. In the first place it gives no clear indication of the extent to which leave may be sanctioned in the circumstances mentioned; nor does it provide for such leave being prefixed to ordinary leave, when the grant of the latter in continuation is necessary. In the second place, the rule does not state clearly whether, when absence from duty exceeds the period which may reasonably be treated as casual leave, it is the excess over the period considered reasonable or the entire period of absence that should be sanctioned as ordinary leave.

2. It is considered that, though the leave granted on account of the presence of infectious diseases in the family of a Government servant is not debited in his leave account, it should be distinguished from casual leave for the reason that the latter is granted at the request of the Government servant, while the former is not. The Governor-General in Council has accordingly decided to designate such leave in future as 'Quarantine Leave.' He has also decided to limit the grant of this leave ordinarily to 21 days, this limit being increased in exceptional circumstances to 30 days. He has further decided that if absence *for reasons of quarantine* exceeds the maximum of 21 days, or in exceptional cases 30 days, the excess only should be sanctioned as ordinary leave and that once quarantine leave has been sanctioned as such, its character should not be changed, as a result of the grant of such ordinary leave in continuation.

3. The amendments to the rule necessary to give effect to these decisions are published in the annexure to this resolution.

ORDERED that the Resolution be published in the *Gazette of India*.

A. A. L. PARSONS,
Secy. to the Govt. of India.

ANNEXURE.

AMENDMENTS TO THE ADMINISTRATIVE INSTRUCTIONS IN CONNECTION WITH THE FUNDAMENTAL RULES.

Section V.

Before the words "Fundamental Rule 85" under head (2) Casual Leave in this Section, the letter "(*a*)" shall be omitted.

For clause (*b*) under head (2) Casual Leave, the following shall be substituted:—

"(3) *Quarantine Leave.*

Quarantine leave is leave of absence from duty necessitated by orders not to attend office in consequence of the presence of infectious diseases in the family or household of a Government servant. Such leave may be granted by the head of the office on the certificate of a Medical or Public Health Officer for a period not exceeding 21 days, or, in exceptional circumstances, 30 days. Any leave necessary for quarantine purposes in excess of this period shall be treated as ordinary leave. Quarantine leave may also be granted when necessary in continuation of other leave subject to the above maximum. Except in the cases mentioned in the notes below, no substitute should be appointed in place of a Government servant absent on quarantine leave. A Government servant on quarantine leave is not treated as absent from duty and his pay is not intermitted."

The following two notes shall be inserted below the rule "(2) Casual Leave:—

"*Note 1.*—In the Postal Department substitutes may be employed in the place of postmen and posted menials (other than runners) who may be granted casual leave, under the rules laid down in the enclosure to Industries and Labour Department letter No. 20-P.T.E., dated the 28th August 1926.

Note 2.—In the Railway Mail Service substitutes may be employed in the place of mail guards, van peons, porters and other inferior servants who may be granted casual leave, under the rules laid down in the enclosure to Industries and Labour Department letter No. Est. B./APC-66/28, dated the 11th January 1930."

Notes 1, 4 and 4-A under clause (*b*) under head (2) Casual Leave shall be cancelled and the existing notes shall be renumbered as Notes 1, 2, 3 and 4.

In the existing Notes 2, 4-B and 5, for the words "who is prohibited from attending his duties on account of some infectious disease in his family and" the words "on quarantine leave" shall be substituted.

In the existing Note 3, for the words "on account of some infectious disease in his house" the words "who is on quarantine leave" shall be substituted.

For the figure "(3)" before the words "Recall from leave" in this Section, figure "(4)" shall be substituted.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

(*Note.*—On an average of the five years ending 1931-32, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the second forecast in October last, weather conditions continued generally favourable except in Mymensingh and Tripura State where heavy rain somewhat affected the early crop in places. On the whole, a higher outturn was harvested this year.

The prospects of the late crop are expected to be fair.

Area sown.—The total area sown with early cotton is returned at 74,760 acres and that with late at 1,032 acres this year as against 74,590 and 1,100 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 23,499 bales and the late crop at 303 bales as against 20,195 and 308 bales, respectively, in the corresponding forecast of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 14th December, 1933.

Final Forecast of the Bhadoi Crops of Bengal, 1933-34.

(*Note.*—On an average of the five years ending 1931-32, the area under autumn rice in Bengal has represented some 6·4 per cent. of the total area under rice in British India.)

Character of the season.—As indicated in the preliminary forecast, the weather was generally favourable for sowing and for the growth and development of the crops. Damage by flood and heavy rainfall was caused to certain low-land tracts of West and North Bengal. High-land crops, on the other hand, fared well. On the whole, the season was satisfactory for crops.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,520,600 acres as against 6,549,600 acres last year. Of this, the area under autumn rice is estimated at 5,775,300 acres as against 5,794,800 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 79 per cent. of the normal this year as against the same estimate last year.

The autumn rice is estimated to yield an outturn of 79 per cent. of the normal for the province this year as against 83 per cent. estimated by this department last year. In my opinion the outturn of autumn rice is an under-estimate and the crop will not fall short of 85 per cent. of the normal as estimated in the preliminary forecast.

On the basis of a normal yield of 12½ maunds of clean grain per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 2,254,100 tons this year as against 2,208,500 tons revised last year.

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 14th December 1933.

Second Forecast of the Winter Rice Crop of Bengal, 1933-34.

(*Note.*—On an average of the five years ending 1931-32, the area under winter rice in Bengal has represented some 17·5 per cent. of the total area under rice in British India.)

Character of the season.—Since the submission of the first forecast, excessive rainfall in August caused damage to the crop in most of the districts of West Bengal. Good rainfall with alternate sunshine in September and October generally favoured the growth and final development of the transplanted winter paddy. On the whole, a satisfactory outturn is expected for the province.

Acreage.—According to the figures returned by the District Officers the total area under winter rice is 15,535,600 acres as compared with 15,537,300 and 15,590,000 acres in the corresponding and final forecasts of last year. The increase in area as compared with that of the first forecast is due to further transplantation.

Outturn.—From the summary of the district returns appended, it will be seen that two districts report a bumper crop, four districts report a normal crop, seventeen districts a crop varying from 75 to 92 per cent. and the rest below 70 per cent. of the normal. According to the above estimates, the provincial outturn works out to 86 per cent. of the normal as against 90 per cent. estimated by this department, both in the corresponding and final forecasts of last year.

Accepting 86 per cent. as provincial outturn, the gross yield of the crop on the basis of a normal yield of 13½ maunds of clean grain per acre is estimated at 6,625,800 tons this year as against 6,934,700 and 6,958,200 tons, respectively, in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 15th December 1933.

First Forecast of the Spring Oilseed Crops of Bengal, 1933-34.

(*Note.* —On an average of the five years ending 1931-32, the area under linseed in Bengal has represented some 3·5 per cent. and that under rape and mustard 11·0 per cent. of the total areas under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions. In the other two divisions, the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 867,500 acres this year as against 868,800 and 885,200 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September and in the first half of October which was generally above the normal delayed sowings in Rangpur, Pabna, Mymensingh and Bakarganj. Elsewhere the operations generally commenced in normal time. Dry weather in November was helpful to further sowings and growth of the crops. The present condition is reported to be favourable, on the whole.

Director of Agriculture, Bengal (offg.).

Resolution on the Report on the administration of the Jail Department of the Presidency of Bengal for the year 1932.

GOVERNMENT OF BENGAL.

CALCUTTA, THE 18TH DECEMBER 1933.

RESOLUTION—No. 4413 P.J.

Read—

The Report on the Administration of the Jail Department of the Presidency of Bengal for the year 1932.

The Reports for the years 1929, 1930 and 1931 and the Resolutions of Government thereon.

1. The early months of the year 1932 witnessed a revival of civil disobedience and the influx of a fresh stream of prisoners into the jails. Fortunately, the department forewarned by previous experience, were ready to meet the challenge. The Hijli Additional Special Jail, the Dum Dum Special Jail and the Dum Dum Additional Special Jail were brought into commission at once, and later on in the year, a second Additional Special Jail was opened at Dum Dum, and a female jail at Berhampore, in the district of Murshidabad. A marked increase, both in the total number of admissions during the year and in the average daily prison population, was, therefore, to be expected. The number of admissions was 43,695 against 30,727 in 1931 and 36,801 in 1930, while the average daily strength during the year was 22,618·23 against 19,300·19 in 1931, 20,015·20 in 1930, and the normal figure of about 14,500. The population received into the jails in the course of the year reached the appalling total of 150,837 or 20 per cent. more than the figure for the year 1930 which witnessed the first phase of the civil disobedience campaign. This is but one indication of the price that has to be paid for the spirit of lawlessness which the cult of civil resistance engenders.

2. A feature of the civil disobedience movement of 1932 was the large number of women who were deliberately encouraged to court imprisonment. The number of females admitted to prison from the courts during the year was 1,300 against 697 in 1931, 628 in 1930 and the normal figure of 400-420, while the daily average number of female prisoners throughout the year was 309·55 against 140·42 in 1931, 152·61 in 1930, and 109·86 in 1929. The increase was almost entirely attributable to civil disobedience activity.

3. The number of juvenile and adolescent prisoners admitted to jail, though in excess of the figures for the previous year, showed a slight decline as compared with the figures for 1930 when the first phase of the civil disobedience movement was in progress. The percentage of convicts admitted to prison between the ages of 16 and 18 was 7·42, and between the ages of 19 and 21, 12·76, as against 9·87 and 13·58, respectively, in the year 1930. These percentages are considerably in excess of the normal, and though economic conditions may have been a contributory factor, the main reason for the increase was the fact that civil disobedience offered an attractive diversion to school boys and students, whose emotions were so worked upon by civil disobedience leaders that they were persuaded that they were performing a patriotic duty in defying the established laws of the country. It is a tragic fact, which needs to be emphasised because it is so often forgotten, that the ranks of these youthful civil resisters have provided a fruitful recruiting ground for the terrorist organisations.

4. The unprecedented number of prisoners in jails necessarily led to overcrowding and this in its turn increased enormously the difficulties of jail management. The majority of civil disobedience prisoners were not amenable to any form of jail discipline, and many made a point of being as insubordinate and difficult as possible, and of disregarding every jail rule, very frequently at the expense of their own comfort and convenience. There was also a marked increase during the year in the number of prisoners convicted of terrorist offences who added still further to the responsibilities and anxieties of the Superintendents and jails staff. Encouraged to believe that they were martyrs in the country's cause they, like

the civil disobedience prisoners, entered the jails with a wrong-headed sense of their importance, as ridiculous as it was tragic, and did their utmost to undermine jail discipline by threatening the staff, by going on hunger-strike on the flimsiest of pretexts in the hope that their friends outside would make these tactics an opportunity for bringing them to public notice, and generally by every means in their power. Their insubordination was also displayed by surreptitious communication with members of the public, and by conspiracies and attempts to escape. In the circumstances described, it is not surprising that in some instances jail discipline suffered, and that there was an increase in the number of punishments inflicted on members of the warder staff. There was also an increase in the number of escapes during the year (excluding those resulting from the tornado disaster at Mymensingh), a notable case being that of the three terrorist prisoners who escaped from the Midnapore Jail. The details of this episode are given in the Inspector-General's report. It must be remembered, however, that a not inconsiderable proportion of the jails staff was only temporarily employed, and a still larger proportion was practically untrained in the duties of managing prisoners. Taking all these factors into account the Governor in Council considers that it is creditable to the jail staff that they not only maintained their morale and a fair standard of discipline in the jails, but generally carried out their duties with courage, cheerfulness and restraint under the most trying and disheartening conditions to which they have been subjected in recent history. The Governor in Council takes this opportunity to place on record his appreciation of the services rendered by the staff of the various jails, from Superintendents downwards.

5. Having regard to the overcrowding and abnormal conditions under which they were confined, the physical well-being of the prisoners might reasonably have been expected to suffer very seriously. His Excellency in Council therefore takes pleasure in noting that while there was an increase in hospital admissions, mainly due to malaria and dysentery, the death rate fell to 10·52 per mille against 11·5 in 1931, and that this is the lowest figure achieved in any year except 1930. It is also noteworthy that out of 6,739 civil disobedience prisoners released from jail during the year, 45 per cent. gained weight during their confinement, while the weight of 43 per cent. remained stationary and that of only 12 per cent. showed a decrease. This affords an interesting sidelight on the persistent allegations made by certain sections of the press that civil disobedience prisoners were ill-treated in jail.

6. During the year under review the increasing number of prisoners convicted of terrorist offences and the risk to the security of the jails which their confinement entailed led to a decision that the Cellular Jail at Port Blair should be reopened for this type of prisoner. By the end of the year 58 terrorist prisoners had been transported to the Andamans.

7. The number of persons dealt with under the Bengal Criminal Law Amendment Act and lodged in jails during the year varied from 294 to 345. This class of prisoners not only aggravated the problem of accommodation but also greatly increased the menace caused by the presence of terrorist convicts.

8. His Excellency in Council has had occasion to comment unfavourably in previous years on the long detention of under-trial prisoners. The position in this respect shows only a slight improvement. The average period of detention in sessions cases was 56·47 days against 63·56 in 1931 and in cases other than sessions cases 23·02 days against 26·59 in the preceding year. These figures resulted in a chronic state of overcrowding in the under-trial yards, and increased the already heavy burden imposed upon the jail staff. Another undesirable feature which His Excellency in Council again has occasion to notice is the excessive number of cases in which short-term sentences were imposed by Magistrates' courts. The number of persons sentenced to terms of imprisonment of less than one month again exceeded 9,000, and was still nearly 50 per cent. greater than the figure for 1929. It is therefore necessary to stress once more the fact that such sentences not only have no penal effect, but give the comparatively unspoiled victim the undesirable companionship of the hardened criminal.

9. The Borstal School at Bankura continued to fulfil its function of reclaiming youthful offenders, and during the year no less than 90 boys were released on licence, and transferred to the

After-Care Association at Calcutta. The Inspector-General reports that the Superintendent of the School was unable to obtain any report on the subsequent careers of these boys. It is to be hoped that the association will give this matter its attention, as it is important that the school should be able to follow the careers of the boys it releases.

During the year under review, a toy industry was started in the school as part of the technical training given to the inmates, and the fact that the products of this industry have found a ready market locally is an encouraging sign of the usefulness of this training.

It has given His Excellency in Council pleasure to read that two boys were able to appear at the Matriculation Examination during the year, and that one of them passed in the first division and was released on licence to enable him to be admitted to the local college.

It is gratifying to be able to record that as a result of the moral instruction and guidance given by honorary religious instructors—both Hindu and Muhammadan—there was a marked improvement in the moral tone of the school, and the conduct of the boys.

10. Financial stringency, which persisted throughout the year, has once more combined with the abnormal conditions prevailing in the country to prevent progress being made with many urgent schemes for the improvement of the jail administration which have been pending for a long time. A noteworthy item of expenditure during the year was the cost of repairing the damage caused to the Mymensingh Jail by the tornado in May 1932, which amounted to Rs. 1,20,756.

11. Adverse trade conditions continued to affect the jail manufacturing departments, with the result that earnings fell from Rs. 3,75,244 in 1931 to Rs. 3,12,568 in the year under review. In many cases, the jail department found it impossible to compete with the low market rates which prevailed throughout the year. Some satisfaction is, however, to be derived from the fact that the value of goods supplied to Government departments increased by 74 per cent., and that during the year the amount of outstanding bills was reduced by nearly 50 per cent.

12. His Excellency in Council regrets to have to record two distressing events which took place during the year. On the 18th November 1932 an attempt was made by armed terrorists to assassinate the Superintendent Mr. Chas. A. W. Luke as he was motoring one evening with his wife and daughter. Fortunately the attempt was unsuccessful, and Mr. Luke, though he received serious injuries, is to be congratulated on his providential escape from death. The other event which took place earlier in the year was the tornado which demolished a large portion of the Mymensingh Jail, and resulted in 31 deaths and 100 injured. His Excellency in Council takes this opportunity to place on record his sympathy with the injured and the relatives of the bereaved.

13. Throughout the year, the Superintendents and jails staff were subjected to a strain greater, if anything, than that of 1930.

They performed their duties with patience, courage and devotion to duty, and His Excellency in Council has read with special pleasure the names of those officers whom the Inspector-General has found it possible to mention in his report. His Excellency in Council also takes this opportunity to acknowledge the valuable services rendered to the department under exceptionally difficult conditions by Lieut.-Col. R. E. Flowerdew, I.M.S., Inspector-General of Prisons, Bengal.

Order.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons, Bengal, for information and guidance.

Ordered that a copy of the report be submitted to the Government of India, in the Home Department.

Ordered that a copy of this Resolution be forwarded to the Judicial Department of this Government for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

Indian Police Medal.

New Delhi, the 14th December 1933.

No. F. 114/39/33.—His Excellency the Viceroy and Governor-General of India has been pleased to confer the Indian Police Medal on the following officers:—

Bengal.

1. Probhakar Mukherji, Sub-Inspector of Police, Calcutta.—In July 1933, in Calcutta, this officer displayed courage and devotion to duty in facing, single-handed, a mob of 300 rioters, armed with daggers and lathis, who had already assaulted a small police party. When the Sub-Inspector arrived on the scene he also was attacked and in warding off a blow was stabbed in the wrist, his left hand being disabled as a result. Nevertheless, he stood his ground until reinforcements arrived.

2. Peter Greenhorn, Sergeant, Calcutta Police.—This officer displayed courage and initiative while taking part in a police raid on a gang of armed terrorists. The terrorists fired on and wounded one of the police party, but were eventually compelled to surrender.

3. Nabi Sher Khan, head constable, Bengal Police, 4. Sakir Khan, constable, Bengal Police, and 5. Ghandal Khan, constable, Bengal Police.—On the 2nd of September 1933, Mr. Burge, District Magistrate, Midnapore, was shot dead and his two assailants were at once tackled by Mr. Jones, Additional Superintendent of Police, and Inspector Smith. These two officers, both unarmed, were struggling on the ground with the armed assassins when head constable Nabi Sher Khan and constables Sakir Khan and Ghandal Khan, also unarmed, dashed to their assistance, displaying courage and commendable presence of mind at a critical moment.

N.B.—These awards are made for gallantry under regulation (*d*) (*i*) of the regulations governing the grant of the Indian Police Medal and consequently carry with them the special allowance admissible to officers of and below the rank of Inspector of Police.

PUBLIC SERVICE COMMISSION (INDIA).

Press communique.

Delhi, the 13th December 1933.

It has been repeatedly represented to the Public Service Commission that the dates fixed for the examination for admission to the Indian Military Academy in March-April each year coincide with those for certain University and other examinations; and that this inflicts hardship on candidates who wish to appear at both the Indian Military Academy and some other examination.

2. The governing factor in the fixation of dates is that the Indian Military Academy requires the batch of cadets which passes at the March-April examination each year to be ready for admission on the 24th August following. This necessitates the getting out of the results some two months before the above date, if a reasonable period of preparation is to be allowed to successful candidates and their parents. Even more time is required for the marking of papers and tabulation of results; further a concurrent examination for one or two candidates is held in London, their scripts being sent out to India for marking. Hence, the spring examination has to be completed by the 15th of April at the latest. In the candidates' own interests it would be better to hold it even earlier, since Delhi in the second half of April frequently becomes unpleasantly hot.

3. For the above reasons, it would be impracticable to change the time of the spring examination from that which has been fixed. The Public Service Commission, after a careful comparison of the various University Calendars, are in a position to say that, as far as the first 3 months of the year are concerned, it would be possible to suit the convenience of everyone only if no examination at all were held during these three months.

Secretary, Public Service Commission.

2. The Land Acquisition Act, 1894, hereinafter referred to as the said Act, shall, in its application to Bengal, be amended in the manner hereinafter provided.

Amendment of section 3 of Act I of 1894.

3. For clause (*d*) of section 3 of the said Act, the following clause shall be substituted, namely :—

"(*d*) the expression "Court" means a principal Civil Court of original jurisdiction, and includes the Court of any Additional Judge, Subordinate Judge or Munsif whom the Local Government may appoint, by name or by virtue of his office, to perform, concurrently with any such principal Civil Court, all or any of the functions of the Court under this Act within any specified local limits and, in the case of a Munsif, up to the limits of the pecuniary jurisdiction with which he is vested under section 19 of the Bengal, Agra and Assam Civil Courts Act, 1887." XII of 1887.

STATEMENT OF OBJECTS AND REASONS.

The Civil Justice Committee in Chapter VII of their Report recommended the adoption of measures for affording some relief to District Judges in respect of their functions under the Land Acquisition Act, 1894. Difficulty has been experienced in giving effect to this recommendation owing to certain doubts that have arisen as to the correct interpretation of section 3(*d*) of the Act. This Bill has been framed in order to remove this difficulty.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 21st November, 1933 :—

L. A. BILL NO. 47 OF 1933.

A Bill further to amend the Indian Tariff Act, 1894, the Indian Finance Act, 1931, and the Sea Customs Act, 1878, for certain purposes.

WHEREAS it is expedient further to amend the Indian Tariff Act, 1894, the Indian Finance Act, 1931, and the Sea Customs Act, 1878, for the purposes hereinafter appearing ; It is hereby enacted as follows :— VIII of 1894. VIII of 1878.

Short title.

1. This Act may be called the Indian Tariff (Second Amendment) Act, 1933.

Amendment of the Second Schedule, Act VIII of 1894.

2. (*1*) After Item No. 40A of the Second Schedule to the Indian Tariff Act, 1894, the following item shall be inserted, namely :— VIII of 1894.

"40B	MINERAL OIL, not included in Item No. 40 or Item No. 40A, which is suitable for use as an illuminant in wick lamps.	Imperial gallon.	Two annas and three pies."

(*2*) In sub-item (2) of Item No. 41 of the said Schedule, after the word "thermometer," the words "is not suitable for use as an illuminant in wick lamps," shall be inserted.

Amendment of the Second Schedule to the Indian Finance Act, 1931.

3. After Item No. 40A of the Second Schedule to the Indian Finance Act, 1931, the following item shall be inserted, namely :—

"40B	MINERAL OIL included in Item No. 40B.	Nine pies per Imperial gallon."

*The Governor General has been pleased to accord the sanction required by section 67(2) of the Government of India Act.

Insertion of new section 195A in Act VIII of 1878.

4. After section 195 of the Sea Customs Act, 1878, the following section shall be inserted, namely :— VIII of 1878.

Power to make rules for determining whether mineral oil is suitable for use as an illuminant.

"195A. (*1*) When by any law for the time being in force a duty of customs is imposed on mineral oil which is specified as being suitable or as not being suitable for use as an illuminant in wick lamps, the Chief Customs Authority may make rules for determining in disputed cases whether any mineral oil is or is not suitable for such use.

(*2*) In particular such rules may—

(*a*) specify the design, construction and materials of test lamps to be used for testing the burning properties of mineral oil in wick lamps and provide for the standardisation of such test lamps ; and

(*b*) prescribe the manner in which and the persons by whom tests are to be carried out and the standards to be accepted for deciding whether any mineral oil is or is not suitable for use as an illuminant in wick lamps."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to amend the Import Tariff so as to apply the rate of duty now prescribed for kerosene to all other mineral oils (excepting motor spirit) which evince, when tested by a standard lamp, a prescribed minimum illuminating capacity, and can therefore be used as substitutes for kerosene for burning in lamps. The change is necessary in order to put an end to what has become a steadily increasing loss of revenue.

2. The rates of duty on kerosene are as follows :—

		As.	ps.
Customs import duty—			
(*a*) Basic duty		2	3
(*b*) 1st surcharge		0	9
(*c*) 2nd surcharge 25 per cent. of (*a*) *plus* (*b*)		0	9
Total ..		3	9
Excise duty—			
(*a*) Basic duty		1	6
(*b*) 1st surcharge		0	9
(*c*) 2nd surcharge 25 per cent. of (*a*) *plus* (*b*)		0	6¾
Total ..		2	9¾

3. For some time past large quantities of light fuel oil (light diesel oil) have been imported for use in India as illuminants. Such oil is not so used in other countries and no trade practice could be established by which it could be described as "kerosene." The latter term, though it has been defined for the purpose of the excise duty, is not so defined in the Import Tariff and therefore has to be interpreted by Customs officers in accordance with trade usage. The consequence is that the imported oil in question cannot be treated as kerosene under the Import Tariff ; but where use as an illuminant can be proved, such use takes it out of the Tariff definition of fuel oil (duty 12½ per cent. *ad valorem*), so that it becomes dutiable as "oils, other sorts" at 25 per cent. *ad valorem*, equivalent to about 9 pies a gallon. The application of this rate still leaves these oils with a very considerable advantage over the oils which pay duty at the "kerosene" rate with the result that the recognised kerosene oils, and particularly an inferior quality which is largely made in Burma, are being displaced to an extent which is increasing day by day to the detriment of the local industry as well as of the revenue derived from the import and excise duties on kerosene.

4. No satisfactory dividing line between illuminating and non-illuminating oils based on their physical constants or chemical properties has so far been formulated, but a standard lamp to test burning capacity has been devised. The Bill provides for giving the Government power to prescribe this pattern of lamp as the one to be used in testing imported oils for the purpose of the new tariff entry and to frame rules laying down other particulars of the tests to be applied.

CALCUTTA, THE 21ST DECEMBER 1933.

RESOLUTION—No. 14963 Emi.

Read—

The Report on inland emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1933, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

There was a further decrease in the number of emigrants despatched to the labour districts during the year under review, recruitment being curtailed owing to the general economic depression.

2. Recruiting operations in this Presidency were conducted only in the districts of Birbhum and Midnapore. The number of garden sardars employed during the year was 13 (including 3 sardarnis) as against 60 and 100 in the two previous years. They all worked under the control of licensed local agents. The number of local agents' licenses was 15 as against 14 issued in the previous year. The total number of emigrants recruited in Bengal was 56 as against 97 in the previous year. Of these, 13 came from Birbhum and the rest (43) from Midnapore. The total number of recruits from Bengal and other provinces embarking at Goalundo was 569, as compared with 1,522 in the previous year. During the year under report no emigrant was despatched to Assam by the steamer route *via* Goalundo, though 1,027 emigrants were sent by this route in the previous year. The reason for this is apparently that the railway route *via* Amingaon is preferred as being the quicker for conveyance of emigrants to the tea gardens of Assam proper.

3. The rest houses for emigrants at Asansol, Kharagpur, Naihati and Goalundo maintained by the Tea Districts Labour Association were frequently inspected and their condition was found to be in all respects satisfactory.

4. Of the 51,193 emigrants who halted at Naihati 12,926 went to the Dooars and the rest with the exception of one mentioned below went to Assam, Cachar and Sylhet *via* Amingaon and G[illegible]. Among the total number of emigrants who arrived from the d[illegible] recruiting districts in and outside the Presidency of Bengal, two deaths, one from small-pox and the other from diarrhoea, and one desertion occurred during the halt at Asansol and one desertion at Naihati; no other death or desertion occurred amongst the emigrants in transit. As in the previous year there was no desertion nor death among the emigrants during their journey from Goalundo to their final destinations.

5. In connection with the transport of labour to Assam both receipts and expenditure increased from Rs. 700 to Rs. 950 and from Rs. 7,544-6 to Rs. 7,748-5, respectively, as compared with the previous year.

6. The office of the Superintendent of Emigration was held by Lieut.-Col. K. S. Thakur, I.M.S., from the beginning of the year up to the 17th November 1932 and by Lieut.-Col. A. Denham White, I.M.S., from the 18th November 1932 till the end of the year. The thanks of the Governor in Council are due to them and to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

O. M. MARTIN,

Secy. to the Govt. of Bengal (offg.).
